HONEYMOON HOP-ON

You want to remember your wedding day, why wouldn't you want to remember your honeymoon through artistically created images? Following your wedding, Brian will join you on your honeymoon and photograph your vacation. Daily activities, like snorkeling, boat rides, hikes, and dining can be photographed candidly upon your request. Photo shoots capturing the location's beauty – sunsets, beaches, waterfalls, vineyards - can be planned and arranged whether in your wedding dress or in other attire. In short, this is an opportunity for you to have the vacation of a lifetime captured professionally with something other than your cell phone. Select photos are edited and provided to you nightly so you can share with friends and family on social media. Finally, your images are turned into a beautiful album for you to enjoy for years to come. Pricing is customized based on location and duration.
